## Education

**OmDayal Group of Institutions – Engineering and Architecture**

*Bachelor of Science in Computer Science, July 2024*

CGPA: 9.12

---

## Experience

**BAAR Technologies — Full-Stack Developer — Jan 2024 – Present**

- Built and maintained robust full-stack applications using Node.js, Express, MSSQL, React, and Redux, delivering seamless front-end and back-end integration tailored to client requirements.
- Developed BAAR Universal Directory, a service offering directory-based features to clients, similar to Active Directory:
  - Created APIs to manage organizations, groups, and users.
  - Developed functionality to fetch and display organizational data.
  - Automated the creation of Group Policy Objects (GPOs) using PowerShell scripts.
  - Set and edited policies in the GPO using PowerShell automation.
  - Assigned GPOs to groups within organizations.

**Modgenics Technology Solutions — Web Developer Intern — Aug 2023 – Nov 2023**

- Developed and maintained RESTful APIs and database schemas.
- Collaborated with frontend developers for API integration and application testing.

**NrXen- IT Technologies — Software Engineer Intern — Dec 2022 – Jun 2023**

- Designed GraphQL queries and implemented role-based logins for a web app.
  - Built a live vehicle tracking system using Google Maps API and Leaflet.js.
- 

## Project

**Code Collab**

[Visit Project](#)

- A real-time collaborative coding platform built using Node.js, React.js, Socket.io, and Express.js.
  - Features:
    - **Shared Code Editor:** Collaborate with others in real-time on the same code file.
    - **Chat Feature:** Communicate with team members during collaboration.
    - **Voice Call Integration:** Discuss and brainstorm efficiently through voice calls.
    - **Room Management:** Create and join private rooms for focused coding sessions.
- 

## Skills

**Back-End Development:** JavaScript, Express.js, Node.js, MongoDB, SQL, GraphQL, WebRTC, Socket.io, Redis

**Front-End Development:** HTML, CSS, Bootstrap, React.js, Angular, Tailwind, Next.js, MUI

**Frameworks & Libraries:** RxJS, NgRx, Angular Material

**DSA:** Java, Python, JavaScript

**Version Control:** Git, GitHub

**Soft Skills:** Team player, Deliver results, Well-spoken
